SAMPLE CHARGES FOR MULTIFAMILY TRASH, COMPOST & RECYCLING SERVICES

July 1, 2020 through June 30, 2021 (published 5/27/20)

Multifamily buildings are required to subscribe to enough Trash service to contain all trash that is generated on the property, and not less than 20-gallons per unit. Unlimited weekly Compost service is included in the Trash charges. There is a required Recycling service charge of \$15.75 per unit per month for unlimited weekly collection of Recyclables in addition to the charge for Trash & Compost services.

Calculating Required Minimum Weekly Trash Service for Your Building:

- 1) Multiply the number of units in the building by twenty (20) gallons.
2) If using Cart service, round the total number of gallons down or up to the nearest number of gallons that can be obtained using the available cart sizes.
3) If using Bin service, round the total number of gallons down or up to the nearest 100 gallons.
4) Select a combination of carts or bins in which the total number of gallons is equal to (or greater than) your rounded number.

NOTE: Overage Charges may be assessed if Trash does not fit in the Trash container(s) you choose. Contamination charges may be assessed if Compost or Recycling containers are used for Trash. You must subscribe to adequate Trash service. Evaluate your residents' Trash, Compost and Recycling usage when selecting Trash containers, regardless of required minimum service.

NOTE: You may order any number of Compost and Recycling containers to meet your needs, at no additional cost.

The Sample Minimum Trash Container Combinations table below shows samples of Trash container combinations and charges for once per week service. Other container combinations may be available. Two, three, four, five and six times per week services are available. In many instances, using a smaller container with multiple weekly collections to achieve the minimum required service level will result in minimal changes to the overall monthly rate.

Monthly Charges for Trash Containers (Compost Service Included) (Recycling Charge NOT Included) (Once/Week Service)
