## Summer Recycling Tips

Summer is a time for BBQs and family fun. Follow these guidelines for disposing your waste in a safe and environmentally friendly way.

### Paper Plates and Napkins

When cleaning up after your picnic, remember that food-soiled paper like pizza boxes, napkins, and paper plates should go in the compost. Use a paper bag or reusable container to bring them and your food scraps to the nearest compost cart or bin.

**Better yet, use reusable plates and utensils to save on money and reduce waste!**

### Propane Tanks

Propane gas tanks are convenient for firing up your portable grill, camping stove or heater, but require extra care when disposing them. Never place used tanks in the trash, recycle or compost carts or bins, as they can cause fires in the collection trucks or at the recycling facility. Take propane tanks to the Household Hazardous Waste Facility. Call (800) 606-6606 or visit [www.stopwaste.org/at-home/household-hazardous-waste](http://www.stopwaste.org/at-home/household-hazardous-waste) for drop off details. **Better yet, use refillable tanks to save on money and reduce waste!**

### Hot Coals

Nothing smells better than a BBQ in the summer time. Disposing of the coals safely is an important part of your clean-up routine.

Make sure hot coals are fully extinguished before placing them in the trash. Place in a metal container and drench in water and/or wait several days before placing in trash. To reduce dust when your container is emptied, please bag your cold ashes.
