State Law Mandates Keeping Food Scraps, Plant Debris, and Paper/Cardboard Out of the Landfill

State Law SB 1383's goal is to reduce greenhouse gas emissions generated when food scraps, plant debris, and paper and cardboard are landfilled. Composting and recycling these items will help slow the impacts of climate change.

For SB 1383 Compliance Your Property Must:

1. Subscribe to curbside compost and recycle collection service in addition to trash.
2. Place color-coded and labeled compost and recycle containers next to all indoor trash containers (excluding restrooms).
3. Inform tenants no later than 14 days after move-in and at least 14 days prior to move-out about the rules.
4. Educate tenants, employees, and contractors, tenants about the law at least annually.
